# SCI Structural Heart Disease Intervention 2016

Date. February 26(Fri) - 27(Sat), 2016

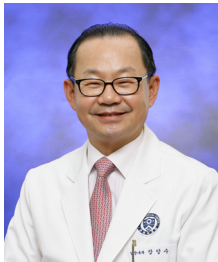

Venue. Severance Cardiovascular Hospital, Auditorium 3F.

SCI Structural Heart Disease Symposium 2016

We would like to invite you to the 4rd Severance Cardiovascular Intervention and Imaging (SCI) Structural Heart Disease symposium on February 26 (Fri) ~27 (Sat), 2016 at Severance Cardiovascular Hospital in Seoul Korea. SCI Structural Heart Disease symposium gives comprehensive educational overview of major topics in catheter therapy of structural heart disease including aortic stenosis, mitral regurgitation and congenital heart disease, as well as renal denervation for resistant hypertension. It offers an exciting experience in learning the latest techniques, seeing the newest devices and meeting the most experienced interventional cardiologists and imaging specialist from all over the world.

A live case transmission with interactive discussions is the main focus of this symposium. Interventional cardiologists, cardiovascular imaging specialist, cardiovascular surgeons and pediatric interventional cardiologist are the target audiences who want to improve their knowledge and skills in these procedures. It is the symposium’s goal to share its advantages with all of the participants.

We would be more than happy to welcome you in Seoul, Korea on February 26 (Fri) ~ 27 (Sat), 2016.
